Senator.

I am tired of asking you to do the right thing.

These bills are bad for Michigan.

You know it, yet you continue to push them.

You are the reason why citizens hate politics and mistrust elected officials.

How can people have representation that will not listen to them?

How can people keep their leaders from sucking up to businesses that would poison the very people who elected them?

How do you sleep at night knowing that you chosen a path that hurts people?

Shame on you Senator. Facts do not sway you. Reason does not enter into your deliberation.

I see people like you and I see only Evil, pretending to be God-fearing.

Is there anything worse for this world than that?

Have you no decency?

Mitch Mitchell
